Prevention Education Inc. is now

same people, same commitment

NEW name

PEI Kids provides the most comprehensive array of children's services in Mercer County. Through education about abuse, bully-prevention programs, crisis intervention, supervised visitation, outreach to juvenile offenders and other services, we offer children and their families important services to make them safe and well.

Keep kids safe by:

Listening *and hearing* what they have to say about day-to-day life, as well as any problems they may be encountering. If they don't volunteer information, ask them what's been going on, who they have been with, and where they have been. It's not prying! Try hard not to overreact if they tell you something alarming, as they may be hesitant to talk with you in the future.
